Risk Assessment Management Plan

KNOX GRAMMAR SCHOOL

This form is to be prepared by the Activity Coordinator and submitted for authorization after Student Activity proposal has been approved.

Risk Assessment: Use the matrix to determine the residual risk level after all control measures are implemented. The 'risk level' is calculated **before** controls are implemented, the 'residual risk' is calculated **after** controls are implemented.

This section must contain information on:

- o Transport arrangements.
- o Arrangements for establishing and maintaining contact with participants and the School.
- o Attendance rolls.

The Activity Coordinator must consult student medical records; if appropriate, this must be reflected in the RAMP documentation.

Activity	Hazard Identification Type/Cause	Risk Level	Elimination or Control Measures	Who & When	Residual Risk
Decathlon	Fire / Emergency evacuation	Medium	Teacher to announce location of exits and emergency meeting point before commencement of Session.	Knox staff	Low
Decathlon	Incident	Medium	Students briefed on expectations regarding behavior. Student will be supervised at all times. Students' teachers must remain at venue and supervise students during recess and lunch.	Knox staff Other teachers	Low
Decathlon	Transport: Buses arriving and leaving site	Medium	Having buses picking students up at Knox and dropping off in the city means that the students are not travelling on public transport during peak hours.	Knox staff Other teachers	Low
