Parents and the local community are warmly invited for an evening with Melinda Tankard Reist, author of *'Big Porn Inc: Exposing the harms of the global pornography industry'*.

Children and young people are bombarded with hypersexualised messages from media and popular culture. The lives of young people are increasingly socialised, conditioned and informed by porn-related content online.

Drawing from current global literature on the subject, Melinda will explore with parents and friends how the proliferation of sexualised images and messages contributes to a distorted view of bodies, relationships and sexuality, hampering their children's healthy physical, emotional and social development. How can we address this toxic culture and raise happy, healthy and resilient kids?
