In those crucial senior years, take advantage of:

- Comfortable accommodation with personal workspace
- Supervised study and visiting academic tutors
- Time to relax as well as work
- The company of others focussing on study

A determination to get the most out of his HSC studies convinced Myall’s Paterson that boarding at Knox was the best option.

“The boarding environment is conducive to academic achievement, you’re in a better learning environment and everyone else there is focused on working as well, so it’s easier. There aren’t as many distractions, whereas when you’re at home you have things like Facebook getting in the way.”

“Boarding at school is not all about hard work, I really enjoy the flexibility and balance. After school we’re allowed to go out to the shops, hang out or do sport, so we’re not stuck at school all the time. And the weekends are flexible, I can go home, fit in my sport, stay in or a mixture!”

More and more boys are moving to boarding for their senior years. To discuss how boarding at Knox can enhance your son’s education and development, contact Martin Gooding on 02 9473 9768 or goodingm@knox.nsw.edu.au
