Let our friendly, qualified staff teach your little ones how to swim and enjoy the water through structured play and appropriate games with lots of laughter in our state of the art Knox Aquatic Centre.

Our dedicated Learn to Swim pool is heated to 31.5 degrees with the most up to date ultra violet filtration system to ensure pristine water clarity for the comfort and well being of our swimmers.

We offer aquatot classes for babies, toddlers and preschoolers where parents and caregivers are able to be part of the wonderful experience of teaching their tots how to enjoy water in a safe and caring environment.

Our holistic approach to teaching swimming will ensure your child sets the pace which will guarantee a happy confident little swimmer.

When your child is ready to swim on their own, in the learn to swim programme, while you watch, our teachers will show them how amazing they can be in the water.

Lessons available morning and afternoon. This will give you every opportunity to give your child the best start possible.

Our school age learners and development swimmers will be able to join in the fun from 3pm.

All these classes are offered over 7 days, with Saturday from 8am and Sunday starting at 9am.

Free assessments and holiday programs can be booked online.

For your ease and convenience we have change rooms with showers, a family room and a disabled change room.

Exclusive parking is available for our Learn to Swim patrons.

The Knox Aquatic Team looks forward to welcoming you to our fabulous facility.
