## WHAT IS POSITIVE EDUCATION?

Positive Education is a strand of Positive Psychology. It involves the application of well-being science into educational settings with the aim of creating flourishing students, staff and whole school communities.

## ABOUT THE CONFERENCE

The aim of this conference is to foster the development of Positive Education in Australia and globally and to provide a forum for Positive Psychology researchers, teachers, students and practitioners.

- **Day 1** of the conference will have a focus on the Science of Positive Education (with networking drinks from 4pm)
- **Day 2** will focus on the Practice of Positive Education (with a fun, hands-on drumming workshop to start the day)

## WHO SHOULD ATTEND?

This is a unique opportunity for leaders, teachers, counsellors, researchers, students and anyone else that works in education to meet and be inspired by others who are keen to explore further what Positive Education has to offer. The Conference aims to provide a broad approach to education including those working in early childhood, primary and secondary schools through to those working in higher education.

## CALL FOR ABSTRACTS

Abstracts are invited from researchers and practitioners of Positive Education by Friday 1 March. All enquiries, including requests for an 'Abstract Submission Template', should be directed to Dr Suzy Green ([suzy@thepositivityinstitute.com.au](mailto:suzy@thepositivityinstitute.com.au)) or Dr Steve Zolezzi ([zolezzis@knox.nsw.edu.au](mailto:zolezzis@knox.nsw.edu.au)).
