## Risk Assessment Management Plan

*This form is to be prepared by the Activity Coordinator and submitted for authorization after Student Activity proposal has been approved.*

**Risk Assessment:** Use the matrix to determine the residual risk level after all control measures are implemented. The 'risk level' is calculated **before** controls are implemented, the 'residual risk' is calculated **after** controls are implemented.

This section must contain information on:

- o Transport arrangements.
- o Arrangements for establishing and maintaining contact with participants and the School.
- o Attendance rolls.

The Activity Coordinator must consult student medical records; if appropriate, this must be reflected in the RAMP documentation.
